Projects

Airbnb Cleaning
Web app built in Java with the Spring framework, using Hibernate, Thymeleaf, and Bootstrap 4.
Hosted live on Heroku and in use by a client managing 7 Airbnb properties.
Automatically populates cleaning schedule by scraping confirmation emails.
Client can add/edit/remove cleanings and view monthly financial data.

Work Experience

Entrepreneur - Eric Schneider Photography - *(2013 - Present)* - eschneiderphoto.com
Freelance photographer focused on portraits and event photography. Works with clients to plan out events and create solutions. Created efficient photobooth workflow and setup.

Leadership - Chase Park Plaza Valet Supervisor - *(2015 - 2017)*
Managing small team at the historic Chase Park Plaza hotel. Duties included scheduling, payroll, financial reporting, delegating tasks to team members for large events.
